About SIIA
The Software & Information Industry Association (SIIA) is the principal trade association for the software and digital content industry. SIIA provides global services in government relations, business development, corporate education and intellectual property protection to more than 500 leading software and information companies.

About The CODiE Awards
The CODiE™ Awards, originally called the Excellence in Software Awards, were established in 1986 by the Software Publishers Association (SPA), now the Software & Information Industry Association (SIIA), so that pioneers of the then-nascent software industry could evaluate and honor each other's work. Since then, the CODiE Awards program has carried out the same purpose - to showcase the software and information industry's finest products and services and to honor excellence in corporate achievement.
