SIIA Announces Finalists for CODiE Awards in Content Categories

Forty-eight products across 15 categories qualify for second-round of prestigious award program

WASHINGTON, DC (December 7, 2009) The Software and Information Industry Association (SIIA) announces the finalists for the prestigious CODiE Awards in the categories relating to content aggregation, distribution, management and publishing. The products that qualified will now be reviewed by members of SIIA, who will vote on winners for all 15 categories. The winners will be announced at a special CODiE Awards Dinner on January 26th, which will be held in conjunction with the 2010 Information Industry Summit.

Forty-eight products from 30 companies were selected as finalists from among over 100 nominations submitted by 65 companies. Gale and LexisNexis have the most products reaching the final stage, with 5 each. The finalists may now be reviewed on the CODiE Awards Website at www.siiia.net/CODiEs.

“This is the twenty-fifth year we have recognized excellence through the CODiE Awards program, and the 9th year we have offered awards in the content categories,” noted Ken Wasch, President of SIIA. “The competition is tough, as many companies are looking to make their products stand out from the competition. The innovations in the content industry shine through in the products selected as finalists, and we are very excited to see how the voting goes this year.”
