

Congratulations to the 2012 SIIA CODiE Awards Business Software Winners! For detailed product descriptions, please visit sii.net/CODiEs

Best Asset Management Solution

Flexera Software - FlexNet Manager Suite for Enterprises

FlexNet Manager Suite for Enterprises is a comprehensive solution for software asset management, Enterprise License Optimization and software license compliance management.

Best International Data Protection Solution

DruvaDruva inSync Cloud

Druva inSync Cloud is a fully-automated enterprise-grade solution which offers secure, fast laptop backups to a virtual private cloud, providing instant anytime, anywhere access to data.

Best Software Development Solution

Coverity, Inc. - Coverity Static Analysis 5.5

Coverity® Static Analysis helps developers find hard-to-spot, yet potentially crash-causing defects, early in the software development lifecycle.

Best Use of Open Source Technology

Jaspersoft - Jaspersoft Business Intelligence (BI) Suite

Jaspersoft provides a flexible and cost effective Business Intelligence (BI) suite, enabling better decision-making through highly interactive reports, dashboards and analytics.

Best Database Innovation

Tableau Software - Tableau 6.1

Tableau Software helps users quickly and easily analyze, visualize and share information.

Best Web Services Solution

Dell Boomi - AtomSphere

Dell Boomi AtomSphere is the market-leading cloud integration platform that allows you to connect applications via a pure SaaS integration platform that does not require software or appliances.

Best Electronic Commerce Solution

ShopVisible, LLC - ShopVisible Ecommerce

ShopVisible's SaaS ecommerce platform provides the innovation and extensibility to help companies thrive everywhere that transactions take place--online, mobile, social, channels, in-store and beyond.

Best Supply Chain Management Solution

IQNavigator, Inc. - IQNavigator.com

IQNavigator's multi-tenant SaaS Vendor Management Software automates the entire lifecycle of the non-employee workforce -- enabling hiring managers, category owners, MSPs and suppliers to better manage contractors, consultants, temporary workers, independent contractors and outsourcers.

Best Document Management Solution

SpringCM - SpringCM

SpringCM makes it easy for people to securely share and manage business content how and when they want, in addition to making it easy for IT to keep content safe with enterprise-class security and user management.

Best Project Management Solution

Innotas - Innotas Project Portfolio Management (PPM)

Innotas Cloud Solutions for IT Management is a seamless way to manage Resources, Applications and Projects across all IT.

Best Systems Management Solution

BoxTone - BoxTone

BoxTone's Enterprise Mobility Management platform delivers real-time mobile device & app management integrated with core IT systems to rapidly mobilize the workforce for iPad, iPhone & Android devices.

Best Human Capital Management Solution

Forte HCM Inc - Talent Acquisition Platform

Talent Acquisition Platform is an On-Demand platform for optimizing talent acquisition through a highly sensitive parameter-based selection process whose product suite consists of tools for candidate Sourcing and Assessment.

Best Content Management Solution

LivePerson, Inc. - LP Marketer

LP Marketer offers a powerful combination of advanced visitor intelligence, real-time traffic segmentation capabilities and user-friendly campaign-building tools.

Best Relationship Management Solution

Coveo - Coveo Insight Solutions for Customer Service

Coveo Insight Solutions for Customer Service provides actionable insight into customer relationships through consolidated, correlated customer information from enterprise systems & social channels.

Best Financial Management Solution

Xactly Corporation - Xactly Incent 7.2

Xactly Incent 7.2 reduces cost, risk and provides better insight for administering compensation, featuring historical record-keeping and built-in audit controls so finance administrators have an audit trail and can easily comply with regulations like Sarbanes-Oxley (SOX).

Best Digital Rights Management Solution

eNet, Inc. - SRM Group - Sentinel Cloud

Sentinel Cloud Services makes it quick and easy for SaaS providers to build versatile service catalogs, provision and authorize user access, measure service usage, and adapt their service offerings.

Best Mobile On-Demand Application

Citrix Online - Citrix® GoToMeeting® for iPad, iPhone and Android

GoToMeeting™'s mobile apps for iPad, iPhone and Android are enabling thousands of users each month to join online meetings easily from any location they take their mobile devices.

Best Mobile Operations Management Solution

Good Technology - Good for Enterprise

Good for Enterprise is a suite of productivity and management tools providing mobile security to enterprises and their workforces and supporting mobile collaboration.

Best Security Solution

Venafi - Director

Venafi is the inventor of Enterprise Key and Certificate Management, and reduces the unmanaged risks associated with encryption deployments that result in breaches and downtime.

Best Integration Solution (tie)

Pervasive Software - Integration Business Unit

Pervasive Data Integrator Pervasive Data Integrator provides cost-effective extraction, transformation of nearly any data source across an organization on a continuous, event-driven or scheduled basis in any usage scenario.

Operative - Operative.One

Operative.One is the only end-to-end Advertising Business Management platform that provides media companies with a platform that helps them create, sell, deliver, bill and report.

Best Marketing/Public Relations Solution

Marketo - Spark by Marketo

Spark by Marketo is a new brand of marketing automation that helps small businesses grow revenue faster with an easy, intuitive master dashboard to all revenue-driving activity, with no extra technical help or expertise necessary.

Best Collaboration/Social Networking Solution
