What your colleagues are saying:

"The Experts' Guide to the Postsecondary Market, published by the SIIA, is a must-read for educational technology professionals in the higher education, career, and vocational markets.

The Experts' Guide provides rich market overviews combined with expert commentary from thought leaders in the educational information industry. New participants and experienced players alike will find the Experts' Guide instructional, insightful, and invaluable as a reference and resource."

Kurt Gerdenich

VP, Technology Product Management

Cengage Learning

"Wish you could get the postsecondary market's leading thinkers to answer your burning business questions? Other than getting them all in a room on your nickel, you'll want SIIA's latest "Experts' Guide." It has it all: informed views from the trenches, academia, customers and vendors; insights into technology trends including eBooks, tablets, virtualization and SaaS; and the latest on international, email and social media marketing. Save money, buy the "Guide.""

Nelson B. Heller, Ph.D.,

President

EdNET/Heller Report

"The Guide is a valuable repository of information and insights into the trends, technologies and disruptive business models shaping the future of the higher education market."

Jeff Shelstad

CEO

Flat World Knowledge, Inc.

"a valuable compendium of data, trends and insights from leading experts in the field, and useful for professionals from a wide range of backgrounds"

Susan Badger

The Badger Consulting Group

"This guide is a comprehensive, must-read textbook for any company wanting to sell products and services to the complex postsecondary market. The authors are all well-known experts in their respective fields and their advice is not only timely, but insightful. Mitchell Weisburgh's chart "The Learning Management System in 2015" is a viewpoint you won't want to miss."

Carol Ann Waugh

President

Xcellent Marketing
