

The SIIA CODiE Awards

Established in 1986, the [SIIA CODiE Awards](#) recognize excellence in the software & information industries. With more than 75 [content, education, and software categories](#), the SIIA CODiE's remain the only peer-recognized program providing winners with incredible market validation for a product's innovation, vision, and overall industry impact.

The [Content CODiE Awards Gala](#), the celebration where we announce the Content CODiE winners, is held during the [Information Industry Summit](#) and showcase the information industry's finest products, technology and services created by, or for, media, publishers and information services providers.

.

The Peter Jackson Innovation Award

This award honors the memory of Peter Jackson, Ph.D., who had a profound impact on the B2B publishing industry. Dr. Jackson (1948 - 2011) was Thomson Reuters Chief Scientist and Vice President of Research and Development. The Peter Jackson Award recognizes individuals who, like Peter, have made a huge technology impact to the industry and also serve as generous and inspirational role models to the people and community around them.
