

## **School Technology Webinar Series: Rio Rancho and New Mexico Public Schools**

September 19, 2013

This first in a series of SIIA-Amprey School Technology webinars features leaders from the 16,000 student Rio Rancho (NM) Public Schools. District leaders identify their educational goals, their priorities for digital learning and technology, and the New Mexico state policies and programs impacting all schools in the state. Rio Rancho highlights their use of apps and their management on a variety of device platforms. This SIIA member-only webinar will provide SIIA members with unique insights into school needs.

### **Speakers:**

- Carl Leppelman, Associate Superintendent of Curriculum and Instruction, Rio Rancho Public Schools
- Karen Boulanger, Director Education Technology, Rio Rancho Public Schools
