SIIA MEMBER SERVICES

Business Development & Networking

From start-ups to established global companies, SIIA provides support for developing partnerships and strategic alliances needed to reach your customer and grow your company. SIIA's One-to-One Business Connections meetings match company executives with investors, distributors and technology partners, while SIIA's Innovation Incubator program identifies new companies and products and connects potential investors and channel partners.

Thought Leadership

As the principal industry association, SIIA is uniquely positioned to shape industry standards and practices, and liaison with the education community on important education, business and technical issues shaping the sector. SIIA members have a wide range of opportunities to guide the positions of SIIA (and therefore the sector) and to position their companies and senior executives as industry thought leaders, including by serving on an SIIA committee or board.

Visibility & Brand Awareness

Member companies receive prestigious and frequent promotion through the SIIA. Opportunities

include a linked listing on the SIIA membership page speaking on SIIA-sponsored panels at customer conferences, speaking at SIIA conferences, being referenced in SIIA publications or press articles, CODiE Award nominations, product efficacy research in SIIA's Vision K-20 website, and much more!

Strategic & Actionable K-20 Market Intelligence

SIIA is the only technology industry organization that supports efforts across the entire K-20 educational spectrum. unique access to market data and analysis, as well as to education and industry leaders and their insight. Understanding of industry needs enables SIIA to provide directly actionable market intelligence on the market size, government funding and regulations, and key trends and initiatives.

Education Policy & Advocacy

SIIA advocates for the role of educational technology, digital learning and the private sector before federal and state governments and education leaders. SIIA's legislative and regulatory agenda helps secure the funding and educator training needed to effectively implement technology, as well as the regulatory reform needed to modernize the educational system, institutions and classrooms. SIIA's policy agenda also includes industry advocacy in the areas of intellectual property, online privacy and commerce, trade and taxation.

Intellectual Property & Anti-Piracy

Copyright, trademark and patent protection has long been the cornerstone of SIIA's agenda and member value. Last year, the SIIA removed over 90,000 illegal download links with a total retail value to SIIA members of over \$75M. SIIA both promotes the importance of intellectual property and copyright protection to consumers, business and education, but also takes legal action against those who are "under-licensing" or selling illegal copies so your company doesn't have to!
