

April 8, 2025

The Honorable Mike Johnson
Speaker
US House of Representatives
Washington, DC 20515

The Honorable Steve Scalise
Majority Leader
US House of Representatives
Washington, DC 20515

The Honorable Hakeem Jeffries
Minority Leader
US House of Representatives
Washington, DC 20515

The Honorable Katherine Clark
Minority Whip
US House of Representatives
Washington, DC 20515

Dear Speaker Johnson, Leader Scalise, Leader Jeffries, and Minority Whip Clark:

We, the undersigned technology companies and trade organizations, are writing to express our support for the TAKE IT DOWN Act. We value the hard work and dedication of Senators Cruz and Klobuchar, and Representatives Salazar and Dean, in drafting this legislation, which requires removal of non-consensual intimate images from online platforms within 48 hours of notification and criminalizes the publication of such images, whether they are real or AI-generated.

Tech companies see firsthand the extraordinary benefits that artificial intelligence (AI) provides. Unfortunately, as with any technology, bad actors are tireless in their attempts to misuse and exploit it - including by using AI to create non-consensual deepfakes to harm and victimize people. Passage of this legislation will help protect countless victims from this type of abuse, it will hold bad actors accountable, and it will better equip tech companies to take action.

Urgent action on this legislation would echo calls from both sides of the aisle. We are grateful for President Trump and First Lady Melania Trump's vocal support for the legislation. Chairman Guthrie has followed the Senate's lead by passing the legislation out of the Energy and Commerce Committee. Now, it is your turn to pass Senator Cruz's bill and send it to President Trump for his signature. We look forward to the House of Representative's swift action.

Sincerely,
